Re: RCRA Interim Status Storage Unit Closure  
Kansas City, Mo.  
MOD 007158157

Dear Ms. Westcott:

As agreed at our 3-29-95 meeting, Van Waters & Rogers Inc. was to inform the MDNR of our decision to either proceed with the RCRA Part B permit application or seek closure of the interim status storage unit by May 1, 1995.

Van Waters & Rogers Inc has decided not to pursue a RCRA Part B permit and will close the interim status storage unit at our Kansas City, Mo., facility. A revised closure plan ( original plan submitted with RCRA Part B permit application in November 1988) will be prepared and submitted to the MDNR after approval of the closure plan for the interim status storage unit at our Berkeley, Mo., facility has been received.

Following the closure of the interim status storage unit, the facility will operate as a small quantity generator and transporter of hazardous wastes.

If you have any questions regarding the closure at our Kansas City facility, please feel free to call me at (314)-522-6400.

Sincerely,  
Van Waters & Rogers Inc.
